The purpose of the Arkansas WIC Program (Special Supplemental Nutrition Program for Women, Infants and Children) is to improve the nutrition of eligible pregnant, breastfeeding and postpartum women, infants and young children during periods of critical growth. The Program provides electronic benefit cards (eWIC) for specific foods that participants redeem at local grocery stores, nutrition education and referrals to other services.

**Pregnant, breastfeeding and postpartum women, infants and children under age five are eligible for WIC if they:**

- **Meet income guidelines.** These guidelines are set at 185% of poverty. Applicants must provide proof of household income. Recipients of Medicaid, ARKids First, TEA and/or SNAP (Food Stamps) may be automatically income eligible for WIC.
- **Are nutritionally eligible.** Conditions such as anemia, certain medical disorders, weight (underweight, overweight, pattern of gain or loss, weight in relation to height, etc.), number and frequency of pregnancies, and inappropriate nutrition practices are some of the factors considered in a nutritional assessment. This assessment is performed by a nurse, nutritionist or physician in the Local (County) Health Unit.

## What is CACFP?

CACFP is the Child and Adult Care Food Program. It is a Federal program that pays for healthy meals and snacks for children and adults in day care.

CACFP improves the quality of day care. It makes the cost of day care cheaper for many low-income families.

Besides providing meals in day care, CACFP makes afterschool programs more appealing to at-risk children and youth. Serving afterschool meals and snacks attracts students to learning activities that are safe and fun.

Children and youth who are homeless can also receive meals at shelters that participate in CACFP.
